Description: People are dying for the new computer game by the software company Monkeewrench. Literally. With Serial Killer Detective out in limited release, the real-life murders of a jogger and a young woman have already mimicked the first two scenarios in the game. But Grace McBride and her eccentric Monkeewrench partners are caught in a vise. If they tell the...

Review: In the back of this novel there is a question and answer session with the mother and daughter team who write this series of novels. From reading that I realized they have pretty defined segments which each woman is responsible for writing. The very good thing is that even knowing that information the novel flowed so well from one author to another....
